Moodle Development Guidelines

- No obligation on 3rd Party plugin developers but it is good practice – particularly if the intention is to submit the plugin to the Plugins Directory.
- Moodle coding documentation pages
  - Coding   style   - https://docs.moodle.org/dev/Coding_style
  - Other   coding   guidelines   - https://docs.moodle.org/dev/Category:Coding_guidelines

Coding Guideline Dev Tools

- **Code Checker** - helps you follow Moodle's coding style - https://moodle.org/plugins/local_codechecker
- Moodle **PHPdoc Checker** - checks styles of PHP docs in Moodle source files - https://moodle.org/plugins/local_moodlecheck

HINT: Install and add folders to .gitignore file to keep in dev environment
